EDUCATION

2015-2021 **Degree in Industrial Design Engineering and Product Development. Universidad Politécnica de Valencia (UPV)**

· Milano Workshop design team 2016-2018.

· Exhibition booth at "Feria Hábitat de Valencia" in 2018.

2022 **Front-End Bootcamp by Pixelpro**

· Learned technologies such as Javascript, Angular, Express, and Git.

WORK EXPERIENCE

(September, 2019 – August, 2020) Levipark21, product designer:

· Design and development of entire product lines for external collaborators and for the company itself as well as unique products for private and public institutions tailored to their needs.

· Development of assembly and fabrication manuals and technical documentation for 80+ products.

CAREER OBJECTIVE

Industrial design engineer with a passion for learning and developing user oriented products and solutions. I have experience working alongside team members and dealing directly with clients. I look forward to joining an engineering team full of passionate and like-minded people, whilst keeping learning and developing my own skills.

SKILLS

Technical:
Javascript
HTML5
CSS3
Angular
React
Node.js
